

## Agentia pentru Protectia Mediului Prahova cauta partener din Norvegia, Islanda sau Lichtenstein pentru implementarea unui proiect in parteneriat din fondurile EEA Grants

Agentia pentru Protectia Mediului Prahova doreste sa implementeze un proiect pe fondurile EEA Grants pentru care cauta partener din tarile donatoare. Proiectul vizeaza implementarea unor masuri de combatere si reducere a poluarii din Romania. Este posibil ca in proiect sa fie implicati si alti parteneri, acest aspect, cat si activitatile sale, nefiind stabilite inca.

Partenerul din tarile donatoare trebuie sa fie o companie privata, ONG sau institutie publica care sa aibe capacitatea sa implementeze un proiect in Romania in conformitate cu sarcinile alocate. Experienta anterioara in proiecte similare de mediu este de preferat. Activitatile partenerului cuprind:

- servicii de dezvoltare software
- servicii de arhitectura si proiectare informationala
- modele de modelare matematica si dispersie a factorilor de poluare
- servicii de proiectare a infrastructurii de conectivitate dintre senzori si echipamente
- servicii de interoperabilitate cu alte sisteme informatice atat ale beneficiarului cat ale tertilor
- servicii de suport on-site la sediile beneficiarilor din Romania.

Partenerul trebuie sa aibe capacitatea de a deplasa resurse umane la sediile beneficiarilor si de a instala echipamente hardware si retele de senzori.

Toate serviciile si cheltuielile efectuate anterior finantarii proiectului nu vor fi decontate.

Prezenta solicitare nu reprezinta un anunt de parteneriat, ci doar o asociere in vederea implementarii proiectelor din fondurile EEA Grants beneficiind de expertiza internationala. Parteneriatul efectiv va fi stabilit dupa identificarea ideii de proiect, a activitatilor acestuia si a factorilor implicati in implementarea sa.

Propunerile de parteneriat se trimit pe email: [office@apmph.anpm.ro](mailto:office@apmph.anpm.ro) si [relatii publice@apmph.anpm.ro](mailto:relatii publice@apmph.anpm.ro) pana la data de 17 octombrie 2016.

## The Environmental Protection Agency Prahova is selecting a partner from Norway, Iceland or Lichtenstein in order to implement a project on EEA Grants

The Environmental Protection Agency Prahova wants to implement a project on EEA Grants for which we are searching for a partner located in the donor countries. The project targets the implementation of measures to combat and reduce pollution in Romania. It is possible that the project will involve other partners, as this aspect, and the activities, have not been established yet.

The partner from donor countries must be a private company, NGO or public institution which has the ability to implement a project in Romania in accordance with the tasks assigned. Previous experience in similar projects environment is preferred. The partner's activities include:

- software development services
- informational architecture and design services
- mathematical modeling and dispersion models of pollution factors
- design services for the infrastructure connectivity between sensors and equipment
- interoperability services with other systems from the beneficiary or owned and operated by third parties
- on-site support services at the beneficiaries' headquarters from Romania.

The partner must have the ability to move human resources to the beneficiary's offices and install hardware and sensor networks.

All the services and expences done before the project has received finance will not be reimbursed.

The present announcement does not represent a partnership requirement, but an assiciation which aims to implement projects on EEA Grants benefiting from international expertise. The effective partnership will be established after the identification of the project ideas, its activities and the stakeholders involved in its implementation.

**Partnership proposals must be sent by email: [office@apmph.anpm.ro](mailto:office@apmph.anpm.ro) and [relatii publice@apmph.anpm.ro](mailto:relatii publice@apmph.anpm.ro) up to date 17<sup>th</sup> October 2016.**
